ICT@Hampton

TechFest was a buzzing event held at the end of the term. This year two classes: Ms Kosson's Year 8 class and Ms Fletcher's Year 11 WIPT class, enjoyed the activities during Period 5 followed by parents, teachers and special guests later that afternoon.

Product Design students were very hands on with their demonstrations of Thermochromic materials and use of smart materials, leaving their audience with amazed smiles.

Marble mazes from STEM classes fascinated young and old visitors. Boats designed by the Applied Science Program students were large and impressive – definitely could have been useful in a flood! And the Subs in Schools prototypes appealed to those with an engineering interest.

The MakeyMakey and Scratch game projects designed and created by Year 8 ICT specialist students amazed the users who tried them out. Their creators confidently explained how to use the game controllers or play a musical instrument.

Regardless of experience, all the students involved in robotics were enthusiastic and competitive when answering question from 'judges' about teamwork and their designs – just what we wanted to see, impressing Mr Dave Kelly, Councillor Chris Cornish, P&C members Nicole Hayes and Jacqui Pavy who all spent considerable time visiting all the activities and talking with students. Teachers from other schools and parent visitors were inspired with their enthusiasm and explanations.

IN THIS ISSUE

Students who went on the STEM tour to Florida (NASA, Universal Studios and other fabulous activities) presented some of the highlights to groups of students and visitors throughout the afternoon. The engaging explanations and confidence as speakers ensure that they continue to be great ambassadors for the opportunities that Hampton offers.

This year we had three Young Explorers teams present their prototype solutions for different problems! Here are the Coolcoders from Eden Hill.

These extravagant events don't just happen – so thank you to students and all staff involved for another successful TechFest.

Year 12s

Any Year 12 will tell you that exams are no fun. Even students in General courses must complete an Externally Set Task (not an exam, but feels like an exam).

The Applied Information Technology students.

Facing the reality of doing the EST.

Relief after completing the EST.

D&T Day

Last term, Year 6 students from Hampton Park and Eden Hill were invited to come to Hampton Senior High School to gain a Product Design and STEM workshop experience. Both schools had a fantastic day which started with Bright Sparks in the morning, followed by a practical task set in the workshop and a STEM challenge.

During recess and lunch, both schools were able to use the pallet furniture which was made last year by our Year 9 Product Design students.

Each student was able to take away a personalised key tag to remember their experience and we look forward to seeing many of them return to us as Year 7 students in 2020.

VET News

Work Place Learning Year 11

It has been a pleasure to visit the Year 11 students who chose to do work placement recently. Students were spread far and wide with Jackson Awa working for a tradie on his last placement day in Alkimos. Other students organised work at a variety of placements including a gym, Bunnings, a beauty salon in Roleystone, a local fencing contractor, Woolworths, a child care centre, a café and a local electrical contractor.

The students are working towards achieving a unit towards WACE and must complete a log book and skills journal as well as the work place component. The students Ms Donohoe visited were engaged in their work and an excellent representation for our school.

Other WPL News ...

Over the years there have been many local employers who have continued to support the school's workplace learning and work experience program. One such is Austec Electrical. The owners of this company had two children who attended Hampton SHS and it was very nice to meet up again with Jake Ragno on a workplace visit. He is now qualified in electrical, refrigeration and communications and is running the company at the moment. His advice to would be apprentices is to stick at it. The first couple of years may be heavy with theory work, but it improves after that. Perseverance is the key.

Tianna Menteith-Smart looking the part at her work placement at Coffee Club Morley.

Gama Omar is working hard preparing large air-conditioning units at his work placement.

Hayley Needham is at Hull Park Early Learning Centre completing her HLT36015 Certificate III Population Health. Hayley would also like to further her studies in Nursing

Brianna White Year 12 placed at Buggles Childcare Centre. Brianna completed a CHC22015 Certificate II Community Services in Year 11 and would like to work post school in Childcare

Maddy Bunn is studying HLT36015 Certificate III Population Health working at Juniper Ella Williams Aged Care. Maddi would like to further her studies into Mid Wifery or OTA work

Amy Burke placed at Rudloc Medical Centre. Currently studying HLT36015 Certificate III Population Health

TiaaniTahana Year 12 placed at ABS Midland completed his AUR20516 Certificate II Automotive and is seeking an apprenticeship

The Arts

"This semester our Year 9 Photography students have produced some truly exceptional portraits, using their camera and post production skills to create artworks that examine human emotion."

Tin Can Paintings

Miss Appleby's art class spent some time designing something to put on the base of a tin can and some of the students' talent is exhibited in the photos below.

Drama – Project ACE

As a new incentive this year, Hampton SHS offered Project ACE to Years 5 and 6 students from surrounding primary schools so they could get a taste of what it would be like to join the Specialist Performing Arts program at our awesome school. The program ran for six weeks which culminated in a Showcase Performance on the final day for parents, family members and friends to view. It was a great success with 21 students participating and all of them having an absolute ball. The enthusiasm displayed by the kids was amazing and the calibre of talent just as exciting. We should see some awesome performers coming through the SPA program in the coming years. As a result of its success, Project ACE will be an ongoing program offered at the beginning of Term 2 every year.

Thanks to Ms Rock and Ms Flint for helping with photos and supervising the Showcase Performance.

This program would not have been possible without the amazing work from Mrs Stott and Mrs Keegan from Admin Services who did a huge amount of work to get the word out and administrate enrolments.

Arts Festival (Spectra)

Every second year, Hampton Senior High School presents the Arts Festival. This year, the festival titled, Spectra has an overarching theme of Light, Colours, Life. The aim of the Festival is to showcase and highlight the Arts to the community through a series of year group performance evenings featuring Dance, Drama, Cheer and Media as well as the Annual Visual Arts exhibition.

The exhibition and performances will run from Tuesday 20 to Friday 23 August in the Eric Strauss Performing Arts Centre.

Tickets are available from Admin Services for \$5 Students and \$10 Adults. We hope to see you there enjoying an array of arts.

Year 7 & 8 Arts Festival Evening is Tuesday 20 August at 7pm
 Year 9 & 10 Arts Festival Evening is Wednesday 21 August at 7pm
 Year 11 Arts Festival Evening is Thursday 22 August at 7pm
 Year 12 Arts Festival Evening is Friday 23 August at 7pm

Reward Excursion

For the Years 10 & 11 Reward Excursion we went to Latitude in Joondalup. This event recognised the consistent efforts of students with their attendance, behaviour, citizenship and academic achievement for the semester. The students had a great time climbing walls, jumping on trampolines, playing dodgeball, and mastering the high ropes course. A positive end to a fantastic semester for these students.

Caitlin Cooper

Caitlin Cooper has been successful as the ATOD 1st place Sub Junior Tap Scholarship winner. She had to achieve over 80% in her tap exam for the last 3 years in ATOD syllabus, then do an unseen class with an interstate adjudicator then perform the day after.

She has qualified to go to Brisbane for nationals at end of July and we wish Caitlin all the best for this competition. Congratulations!!

Physical Activities

Netball - High Schools Cup

On May 7, Hampton took two teams to the Perth Netball Association to compete in the High School Cup. The group consisted of a freshman Year 7 team and a more experienced Year 9 Team. The day consisted of each team playing five games against various North Metro school teams. The Year 9 team led by captain Kyah Chirichilli played some tight matches and came out with a win, while the Year 7 team led by captain Ruby Cooper walked away winless but with some great experience on their shoulders. All the girls played with a great attitude and represented Hampton Senior High proudly.

The Year 8 team played in the after school round robin competition of the High Schools Cup. They had more success and after finishing second in their zone went on to play in the interzone crossovers losing by only one goal to Mercy College. They have been invited to play in the Elimination Day Carnival in Fremantle on August 1. This is the best result we have ever had in this competition.

Year 10 Netball

One team went to Noranda in May to represent Hampton. There was a small number of teams at this carnival and our girls played two rounds (6 games) in silver division and finished second. Well done girls.

Year 9 Netball

The Year 9 Lightning Carnival was held on June 19 at the Noranda Netball Courts. Hampton Senior High had a big pool of netball players so we were lucky enough to take two teams. Both teams played with great spirit and were led by four experienced Year 10s who coached and umpired for the day - Tamika Fernandes, Talisha Fernandes, Zakiya Draper and Emma Petrovic. Students played six games and had sore and weary muscles by the end of the great tournament.

The Team that Reign Supreme

Well the teachers had done it, they played netball against the girls and won it.

A solid unit attacking Granich, Ketterer and Dean with the most flirtatious shooting you'd ever seen.

Letting everyone know who was boss, in defence Lambrinidis, Schibeci, Carter and Ross.

Springy Storer and Big Fella Brookes, they stole the win like a bunch of crooks.

The girls put up a good fight and gave the teachers a good fright.

The 90% shot percentage from Kyah and Abby gave the teachers a splitting headache and gave the girls what they needed with little mistake.

The force of Emma, Ruby and Lisa needed a miracle on court. Talisha, Zakiya and Maddison's defence just fell short.

The crowd were fantastic, they screamed and cheered.

We look forward to more competitions later in the year.

Year 10 Basketball

The Year 10 Boys Lightning Carnival took place at the Herb Graham Centre. The boys fought hard all day picking up a couple of wins along the way. All of the students had a lot of fun and played well as a team.

Whole team

Cross Country

Hampton had 20 students compete at the School Sports WA Cross Country Championships in the following age divisions 12yrs girls, 12yrs boys, 13yrs girls, 14yrs boys, 14yrs girls and 15 yrs boys

All athletes ran to the best of their ability and showed great sportsmanship throughout the day and achieved some great results.

Some stand out performances from the event: Ren Allen finished 38th in the 14yrs boys, Austin Walton finished 39th in the 14yrs boys and Izzak Bolton finished 9th in the 15yrs boys which makes him eligible for state team selection

Patrick

Abbi

Vaughan

Izzak

Austin

Year 9 Basketball

A team finished 6th in a division with 6 teams
B team finished 2nd in a division with 7 teams
All boys played well and showed great school spirit and sportsmanship

Outdoor Recreation Camp

The Year 12 students went to Pemberton in June for their camp. The three day camp included activities such as mountain biking, canoeing and deep water rescues. While there the students also completed their First Aid Course which we all know is a very useful tool for them to have.

Year 9 Soccer

On Wednesday June 19 our Year 9 Soccer team set out once again to dominate Ashfield Oval. Having the same team as last year with some fresh recruits Mohammad Jarfarlou Soma and Dara Oukrin we were led by our Captain Orhan Boric and the boys - Chay Allen, Corway Haung, Abbas Gul Mohammadi, Samuel Nguyen, Benjamin Obic, Izaiah Odundo, Sujal Rajkarnikar, James Ross, Frank Rossitto and Metin Yavuz. The display against Swanview was incredible and saw us scoring 17 goals, a highlight was a cross from Orhan and a header into goals by Mohammad. Kiara next, we had a Messi with a leftie kick for goal by Orhan. Winning

by 10 goals, our forwards were both swift and skilful. Govo was an intense game as we also met them in the finals. The mid-field and defence line were working hard. Hampton SHS had scored an outstanding 31/55 goals in the rounds. All we had to do was meat.box.juice to win. Both teams had their chances at goals and also many saves. With a draw of 2-2 at the end of the match, the penalty shootout was the only way to decide. Not the outcome that the boys wanted, but we are so proud of their efforts. Next year boys! Thanks to our coaches and umpires, Shimran Sabackic and Haris Obic, who displayed excellent leadership and knowledge in the game. We had a few parents come down to support and cheer us on.

WABIAD, 2019

8.00am Thursday, 20 June, 52 Hamptonites gathered within the library to compete in the 2019 edition of the Write a book in a day (WABIAD). Twenty seven students from Years 7-9, 9 students from Years 10-12, and 16 former Hampton students, taking time out from university studies, came back to participate. In total, 6 books were completed – both the writing and the illustrations again of an exemplary standard.

A fantastic time was had by all; the atmosphere as always was electric – this being the ninth-time Hampton has participated in the event, after hosting the awards morning tea in 2017. WABIAD is a fundraising venture for the Kids Cancer Council, and each of the books will end up at PCH or Fiona Stanley. Previously, we have won and had several placings in the different divisions. It is an exciting part of the English calendar. Copies of the books will be on display in the library and in the office for you to peruse.

Year 12 ATAR English Curtin University Excursion

On 28 June, 24 of our Year 12 ATAR English students attended the Curtin University English and Literature Conference. The conference provides university level lectures on various aspects of the English curriculum, predominantly with an examination focus. This year we attended set lectures on Margaret Atwood's novel "The Handmaid's Tale", Post-Colonial Perspectives (which ties in perfectly with the second semester course!), understandings of Voice, Context and the short answer Comprehending Section of the exam (the most challenging aspect of the Year 12 exam).

The students took away a lot from each lecture, and found the day rewarding. For Mr Hudson, the most significant aspect of the day for the ATAR cohort was a reminder of the genuine seriousness with which they should approach their studies; the need for renewed and ongoing rigour as well as the need to study. Beside anything else, it was simply great to be out of the classroom for the day, to spend time with their peers, engaging in meaningful learning at an adult level. The Curtin conference, again, is an essential part of the English calendar each year.

Caring for Babies and Children

The Year 10 Babies class became temporary parents for three days during Term 2. They faced the challenges of being a parent, with sleepless nights and cranky babies. Not all of our parents were successful, with the emergency stop button pressed a couple of times. This was a reminder to them that a baby is forever, even when it's 40 years old. When asked what was the worst thing about the baby, responses were;

- "It just wouldn't shut up!"
- "The lack of sleep"
- "Dressing it."
- "Wondering if I had killed it!"

Best thing about it was a unanimous "GIVING IT BACK!"

Applied Science

The Year 9 Applied Science Program class made a splash with their most recent project! Term 1 was spent researching boat designs throughout history and how they balanced form and function. Concepts such as buoyancy, density and material properties were investigated, with students using their understanding to build their own boat. There was a catch – the boat had to support a human captain in the school swimming pool. Oh 'buoy!' Groups spent many lessons constructing their boats with various materials, and even getting advice from a boat builder (thanks Mr Harris!). Early Term 2 saw our tests in the pool with a large audience of staff and students providing lots of 'anchor-agement'. Most boats floated perfectly – until their captain boarded. Two boats successfully supported the weight of their captains, and 'knot' wanting to be outdone, each tried to float their cargo to the middle of the pool and back, realising how important balance was! Well done to all groups involved!
