Presentation Evening

This very special evening for Year 12s was held in Winthrop Hall at UWA on Friday 22 October. Once the special guests, official party, graduands, family and friends had been seated the evening began with Acknowledgement of Country and student performances. The first performance was by the Year 12 Dance class who performed Chapter 22, choreographed by Ms Appleby. The second performance was a medley of songs from the musical production of The Addams Family accompanied by Mr Wilson on the piano. After the Year 12 Coordinator's address the special awards were presented, followed by the learning area medals, the Dux Awards, the certificates to all graduating students and then supper. The General Pathway Dux for 2021 is Tyrese Graham-Murray and the ATAR Dux is Sung Zag Ngo.

Mr Beaton & Tyrese Graham-Murray

Goodbye Year 12s

On Thursday October 21 the staff and students farewellled the Class of 2021 with the traditional breakfast (cooked and served by the staff) in the staffroom. There was much merriment as the students enjoyed the labours and service of the staff, signed shirts and prepared themselves for their final assembly which was held in the gym and screened to some classes. The Year 12s also formed "21" on the oval which was photographed by a drone. After these events the students went off to celebrate before having their formal ceremony at Winthrop Hall the next evening and preparing to sit their exams in the following weeks.

Operation XLR8

On Monday 18 October, Mr Cruickshank, Mr Donaldson and Ms Attwood took 31 Year 12 students to Baldvis to participate in the Operation XLR8 Military Obstacle Course.

Although it was a tough, challenging course with lots of muddy, wet obstacles, all of our students gave it their best effort and we think the photos tell the tale in terms of their levels of enjoyment.

Thanks to all students who attended for their enthusiasm and excellent behaviour.

Follow The Dream

Students from Hampton SHS, Kiara College and Morley SHS attended Dreaming Day at Edith Cowan University (ECU).

Our students had the unique opportunity to hear about courses, cadetships and scholarships available to Aboriginal and Torres Strait Islander students. Over the course of the day, students explored ECU's Mt Lawley campus through a scavenger hunt, heard from Aboriginal students currently enrolled in ECU's courses, and explored possibilities for their own futures – including learning how to hack devices (Cyber Security), and protect them from other hackers!

The students had a fabulous day and thoroughly enjoyed the experience.

ICT – Cyber Security Excursion

On Wednesday November 10 the Specialist ICT students from Years 7, 8 and 9 attended Edith Cowan University in Joondalup to participate in workshops that focused on Cyber Security including Digital Forensics and Intelligence.

Some of the activities were memorising and recalling various objects that might be part of a crime scene, cracking the code to a locked box (that contained chocolates) and working out 'who cheated in the exam'. A few students were selected to tour the Mechatronics laboratory to see the research and innovations that are created using engineering and coding.

GAME CHANGERS

The Game Changers Presentation Showcase was held at Curtin Stadium early in Term 4. Although some of our specialist students thought this was a bit much to ask, Ms Lavater, Ms Alford and Miss D'Cunha were there along with 22 keen students from Years 7, 8 and 9.

Some of the key messages, as you might expect, were the importance of Digital Technologies driving innovation in all spheres of endeavour. Lyn Beazley, the organisations' patron, was her effervescent and engaging self at the start of the day. She remembered coming to our school a few years ago for TECH TRAILS and also our bid for the Governor's STEM Awards.

The best was saved the best for last.... (drum roll, please).

One team in Year 7 (Star Stream) won the Year 7-8 Best Presentation award

"Communication Satellite for Mars"

(Tyson Johnston, Brandon Duong, Elias Neville)

One team in Year 8 (Up-soles) won the Best Overall Project award

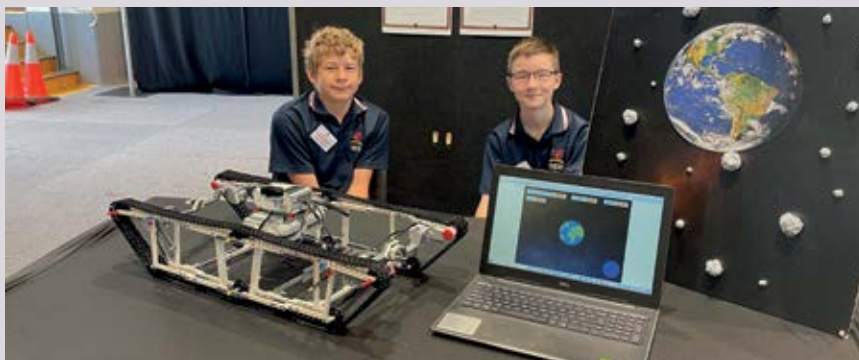

"Re-cycling polystyrene (eg coffee cups) into insoles"

(Valeriya Yakunina, Alex Rowlands, Bimal Kesavan)

Our Year 9 team (RASC) also won the Best Overall Project award

"Robot for collecting space junk"

AND won a prize for building the tallest balloon tower (challenge) on the day. Apparently higher than any engineers have managed! (Isaac Andrews and Ollie Barnes).

MEDIA

Congratulations to Year 11 student Mikaela Battle whose short film "Escape" was screened at the 2021 Synthesis Film Festival in October. Her film was received with great acclaim from the audience. Well done, Mikaela!

VET News

The Hampton Shed Men

As some Year 9 students have completed the Try A Trade Program we decided to keep the boys learning new skills, interacting with each other and developing their efficacy. We introduced a new program called "The Hampton Shed Men". This program is a five week program running for three periods a week where the students can utilise their skills and learn new ones. Every five weeks six new students will enter the program where they will need to set goals and achieve a project.

Our first project was to render the walls in the student services garden. A mighty fine job was done by the boys with only one day of training in rendering. This project will continue into 2022 to complete all the pillars and create a peaceful student space. The second project is upcycling furniture collected from road-side pick-ups. The students select a piece of furniture and have five weeks to upcycle it. With the help of volunteer Adam Derkovic, carpenter and wood carving craftsman, the boys are having a ball learning so much and loving each piece they are renovating. The completed furniture will be on sale at Hampton under a silent bid auction in Week 8 Term 4. Money raised will go back into the project to cover costs of products and equipment purchased to continue the program. We are so proud of what the boys are achieving and the skills they are gaining

Try A Trade

In Term 3 a group of 15 Year 9 boys attended Balga TAFE for three days to try a trade. The boys got to try their hand at tiling, bricklaying and rendering. As the photo shows by day three the boys were worn out! Being a tradie is hard work. They got to enjoy life as a TAFE student hanging out in the TAFE canteen and playing table tennis. Not sure how they managed to kick the real apprentices off the table, our boys certainly are not shy!

Dr Yes

Dr Yes, a team of young University students training to be Medical GPs attended Hampton SHS in September to talk with students to encourage young people to talk to doctors regarding all mental health and medical issues.

Topics discussed over the three day visit were Mental Health (Year 7s), Sexual Health (Year 9s) and Drugs and Alcohol (Year 8s). The students were given a brief talk then split into small groups to interact with the training doctors. Great questions were asked and the students were able to gain valuable and correct information

Year 7 Workshops

Resilience

In November all Year 7 boys attended a work shop with Fiona Perelle from Strength Heroes to learn about resilience. Students are taught to understand how they think so that they are able to make good decisions and problem solve helping them to become more resilient. The boys were very engaged, interested and enjoyed the session.

Financial Literacy

Year 7 girls work-shopped the first stages of financial literacy with facilitator Amanda Ghouse, financial well-being worker and financial workshop facilitator.

The girls were given tasks around expenditure, planning and budgeting. A real eye-opener for them. The girls totally enjoyed the activities and certainly were exposed to the cost of living and understanding the need for budgets!

Holiday Beauties

In the Term 3 school holidays Year 11 and Year 12 students came to school to complete as much practical work in case of a lockdown. It was a great atmosphere bustling in the beauty room with the students' friends and families coming in to be models for the students. Thanks to all who attended as it took pressure off the students, particularly the ATAR students, to be able complete work prior to exams.

SCIENCE

The Year 6 students from Hampton Park and Eden Hill have been visiting throughout the year to study Science as part of the Bright Sparks Program. Those same students also had the opportunity to engage in our annual Product Design Day, where they participated in activities in our STEM room and workshop. Thank you to our specialist teachers, Kathleen Butler and Julie-Anne Johnston, for engaging the students in STEM and Product Design on this day. Hampton Park Primary claimed, "All of the Year 6s spent an exciting and very educational day at Hampton Senior High School. We got to join in lots of fun and interesting challenges in Science and STEM, we even made our own key rings."

We currently have our Year 5 STEM Challenge running, which includes eight primary schools all competing to be the STEM Challenge Champion of 2021. The finale will be held on December 1 in our school library. See you there!

Interschool athletics

Hampton participated in the C Division carnival. We took a great team who participated in all events with great sportsmanship and competitiveness. For the second year in a row we have WON the C Division Athletics Carnival. We had to remain in C Division this year due to some planned work being done at the stadium. On a warm day our athletes performed superbly and were well led by Mr Dean who has once again put together an amazing team of athletes (Academy and non-academy).

The outstanding individual results are highlighted below.

Year 7 Girls Champion - **Danasia Duncan**

Year 7 Boys Runner up - **Elvir Dogic**

Year 8 Boys Third place - **Ty Demir**

Year 9 Girls Champion - **Georgie Purcell**

Year 10 Girls Third Place - **Bella Bonney**

Year 10 Boys Third Place - **Esti Woldemariam**

Year 11 & Over Boys Third Place - **Izzak Bolton**

Some of the other outstanding results included school records being broken by Archie Leahy, Danasia Duncan, ElvirDogic, Ty Demir, Bella Bonney and Emily Purcell.

We also achieved 31 first places, 31 second places and 35 third places in individual events and 2 firsts, 3 seconds and 2 thirds in the relays.

Results

Place	School	Points
1	Hampton	1703
2	Lesmurdie	1652
3	Governor Stirling	1584
4	Greenwood	1275
5	Byford	1272
6	John Forrest	1246
7	Eastern Hills	1195
8	Canning Vale	1045

Congratulations to all of our participants and thanks to the staff who contributed to this victory. We hope to keep this momentum going as we move up to B Division next year.

Athletics West All Schools

The following students represented Hampton at the Athletics West All Schools Championships in October

Year 7 Danasia Duncan, this was her first time competing at this event and she was very nervous. Despite this she achieved some great results finishing 8th in the U/14 girls triple jump and 9th in the U/14 girls javelin.

Year 8 Archie Leahy won gold in U/14 boys 400m and 800m and achieved new personal bests in both events

Year 8 Ty Demir won silver in the U/14 boys javelin and shot put

Year 9 Georgie Purcell won bronze in the U/16 girls triple jump and finished 8th in the U/16 girls long jump and achieved new personal bests in both events

Year 10 Patrick Catley finished 7th in the U/18 boys triple jump

Year 11 Emily Purcell won silver in the U/18 girls triple jump with a new personal best and finished 5th in the U/18 girls long jump.

All medal winners have automatically qualified to compete at the National Championships in Perth next March. Congratulations to all of these students for their tremendous efforts in this competition.

P.A.R.T.Y

A group of Year 10 students attended St John of God Hospital, Midland and engaged in the P.A.R.T.Y Program. Although this excursion sounds like fun with such a title, it is in fact far from anything of this nature. P.A.R.T.Y. which means, 'Prevent Alcohol and Risk-related Trauma in Youth' is a dynamic, interactive injury prevention and health promotion program designed for high school students. The program is designed to help teenagers learn about some of the dangers of risk-taking behaviour and the tragic consequences that can occur if you participate in this type of behaviour.

This informative program certainly presented to our students the long, emotional (to varying degrees) painful journey of trauma patients. The students listened to a variety of health care professionals including doctors, nurses, physiotherapists and paramedics. There were also guest speakers from

the Paraplegic Benefit Fund (PBF) and SYNAPSE to share their personal stories with us. Students had the opportunity to tour the hospital and have hands-on experience with some of the equipment used in trauma care and rehabilitation.

The students were kept engaged in a day full of presentations, tours and activities that culminated in some strong messages being conveyed. The message of driving under the influence was a big topic of discussion but equally important was the information given to our students regarding mobile phone use whilst driving.

Student comment: "The P.A.R.T.Y excursion was an amazing experience. We learnt why people are adamant on the use of helmets and why they help so much, the effects of drink driving and drug driving and how it doesn't just affect you as it is a chain reaction. We also had the opportunity to meet some head trauma victims and ask questions about their experiences of life after their accident. We also visited the ICU, the emergency

department for head trauma patients and tried on a lead coat which they are required to wear during inspection of a trauma patient and used the tools they use. This program was a blast and I recommend if anyone gets the chance to attend to take up the opportunity."

Year 7 Carnival

Super 8 Cricket

On October 29, a group of Year 7 boys attended Hamer Park to compete in Super 8 Cricket. In the first game, the boys were a bit shaky and went down to the top Mount Lawley side by about 60 runs. In the next few games, the boys managed to rally together and beat the second Mount Lawley side and John Forrest. These wins got the boys into the grand final game against the Mount Lawley team they lost to in the first game. By this point, the boys had figured out their tactics and put in a huge effort to come out on top by 60 runs. The boys were stoked to receive their first-place certificates. As a group, they displayed great sportsmanship and determination for which they can be very proud. Well done boys.

Basketball

The Basketball boys showed some promising talent. The A team were nearly unstoppable in the regular season, winning five games and losing only one. In the grand final, our team played against Morley SHS, whom the boys had just beaten by 2 points. Unfortunately, in this grand final, they went down by the same margin. Rory Byers was the MVHP (Most Valuable Hampton Player) as he dominated the paint on both ends of the floor like Shaquille O'Neal in his prime.

The B and C teams also held their own, demonstrating a solid understanding of the fundamentals of basketball to put some W's under their belt.

Overall it was a great day, the students have a bright future in basketball.

Netball

Ten Year 7 students competed against five other schools in a Lightning Carnival. The netball participants were coached by Jorja Venema, Sophia Papiccio and Ella Kersting who did a great job of leading the girls and umpiring throughout the tournament. The girls ended up placing 3rd in their grouping and performed well and represented Hampton SHS with pride. It was a great day and the girls should be pleased with their efforts.

Soccer

Our boys and girls soccer teams won the grand final in their respective divisions. We had three boys' teams and the one girls' team competing against several different schools. The girls won every game and were never really challenged. Some of the results for the girls included 14-0, 12-0 11-1 in our favour. With our boys' teams, Hampton finished 1st, 2nd and 4th overall. It was an all Hampton grand final!

Well done to everyone involved including the Year 10 helpers. We are very proud of you all! Soccer has a bright future set at Hampton SHS for many years to come...

Boxing

Congratulations to Tara Moss in Year 11 on winning the state championships earlier this term. As a result of her success Tara travelled to Adelaide to compete in a tournament which was held in place of the cancelled nationals. This was the biggest tournament held for this year.

Health Expo

At the end of Term 3 our Year 12 Health Studies students held an expo in the gym. The students had a variety of stands with information on various health aspects. Some of the students also designed activities for the lower school students to participate in. It was pleasing to see the colourful stands, the enthusiasm of the presenters and the interest of the students who went in to view the expo.

Cheer

On November 13 & 14 the Specialist Cheer/Dance students had their final competition of the year, the ATC Showdown. The students were super excited to perform under the "fancy lights" on the "bouncy" stage. Both teams were so organised, relaxed and ended up performing their best routines of the whole year. They all came off the floor cheering and excited about their performances. They also had the opportunity to watch the high level teams as well. Thank you to Mr Langfield and Mr Sawle for helping out throughout the day.

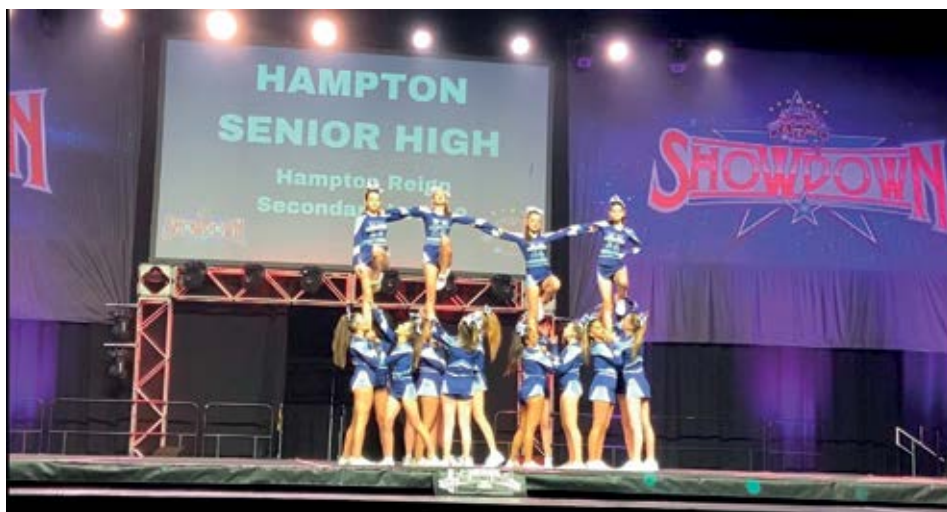

Other students to mention who aren't in the program but also performed amazing routines and have received an invitation to

perform at WORLDS are :Declan Stamp (Year 9), Ariella Stewart (Year 11) and Emma Petrovic (Year 12) and Miss Flint who performs with these students. Next year the WORLDS are virtual so they will perform from Perth. Unfortunately school teams are not allowed to compete in the WORLDS.

Results:

Hampton Reign (9/10 class) = 1st place,
Hampton Sovereigns (7/8 class) = 2nd place

Both teams got the highest scores that Hampton has EVER received. A very successful weekend for our Cheerleaders.

Pendulum

The annual dance concert was held at the end of the first week this term. Both nights were performed to full houses and the audiences were dazzled by the wonderful talent and superb performances of all of our dancers and cheer students. There was a range of dance styles and works that were choreographed and designed to extend, challenge and develop the

dancers. Some of the students were involved in the choreography which gave them the opportunity to demonstrate their creative side. Congratulations to all performers and staff on two wonderful evenings of entertainment and thank you to all who attended to support our very talented students.

Lockridge 50th

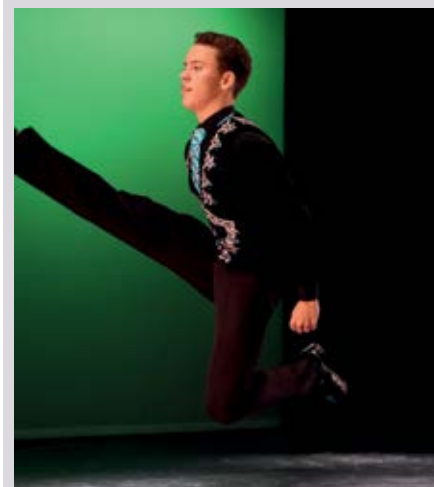

Some of our dancers performed at Lockridge Primary School's 50th Anniversary celebrations. The deputy sent an email saying that our students did a wonderful performance and the community was thankful for their entertainment.

Vaughan Cooper

Our very talented Vaughan Cooper has been asked to perform at one of the "Taste of Ireland Perth Tour (Irish dancing) performances and also for the Nutcracker (Ballet).

We wish Vaughan all the best for his performances and congratulate him on his success in both forms of dance.
